Bachelor in Technology, Information Technology

Birla Vishvakarma Mahavidhyalaya Engineering College, Anand, Gujarat ↗

07/2016 - 05/2020

Higher and Secondary School

THE H.M Patel English Medium School, Dharmaj, Gujarat ↗

06/2002 - 05/2016

PERSONAL PROJECTS

Inventory System (12/2018 - 05/2019)

- For optimal sales and inventory management processes, we need robust functionality for managing the logistics facilities. Support for inventory management helps us record and track materials based on both quantity and value. Warehouse inventory management functions cover internal warehouse movements and storage.
- Using this software, we can reduce costs for warehousing, transportation, order fulfillment, and material handling while improving customer service.

Code Learner Application Using Android (08/2019 - 12/2019)

- Code Learner is an application that contains tutorials of coding languages like PHP, Java, C++ with the coding, topic wise Quiz and challenges in group.
- Even it contains the video tutorials related to the subject selected by the learner.

Adaptive Traffic Control Using Open CV, ML and Python (12/2019 - 05/2020)

- This Project is very much useful for controlling traffic without the need of any traffic control officer on the road.
- This Adaptive Traffic Control System will take into consideration the number of vehicles on all four sides and decide about which side of the vehicles to allow going. It will adjust itself-based on traffic.
- It Saves people time which is wasted in traffic.

WORK EXPERIENCE

Summer-Intern

Venture Technolabs

05/2018 - 06/2018

Achievements/Tasks

- Got well versed with the Corporate Culture, also had detailed understanding of web prototypes and application, configuring and customizing web program, maintaining and supporting websites and systems.
